

Final Thesis Defense Presentation Rating Sheet

Thesis Title: PROJECT AGRI-3D: Design and Performance Evaluation of an IoT Based Weather Adaptive Sensor-Fusion Cartesian Gantry System for Precision Horticulture

Proponents: Luna, Joshua Mark, Georpe, Clark Kent, Cabas, Rhinn Anthon William, Ygot, Joshua

Date: 5/11/2026

Group Evaluation (check the appropriate box):

Criteria	3 = Exceeds expectations	2 = Meets expectations	1 = Does not meet expectation
Mastery of theories and concepts in the field demonstrated in problem statement and literature review	Arguments are superior	Arguments are coherent and reasonably clear	Arguments are sometimes incorrect, incoherent, or flawed
	Objectives are well defined	Objectives are clear	Objectives are poorly defined
	Exhibits mature, refined critical thinking skills	Demonstrates acceptable critical thinking skills	Demonstrates limited critical thinking skills
	Reflects mastery of subject matter and associated literature	Reflects understanding of subject matter and literature	Reflects limited understanding of subject matter and associated literature
	Demonstrates mastery of theoretical concepts	Demonstrates understanding of theoretical concepts	Demonstrates limited understanding of theoretical concepts
	Documentation is excellent	Documentation is adequate	Documentation is weak
Mastery of methods inquiry	Design, analysis plan, excellent	Design reasonable for questions	Design inappropriate to questions
	Plan for analysis goes beyond the obvious, acknowledges limitations and critically considers alternatives	Plan for analysis reasonable, acknowledges some limitations	Confused or ineffective plan for analysis
	Demonstrates regulatory compliance	Considers regulatory compliance	Lacks anticipation of regulatory compliance requirements
Quality of Writing	Writing is publication quality	Writing is adequate	Writing is weak
	No grammatical or spelling errors apparent	Some grammatical and spelling errors apparent	Numerous grammatical and spelling errors apparent
	Organizarion is excellent	Organization is logical	Organization is poor
	Style is exemplary	Style is appropriate to discipline	Style is not appropriate to discipline
Originality and potential for contribution to discipline	Exceptional potential for discovery	Some potential for discovery	Limited potential for discovery
	Greatly extends previous work	Builds upon previous work	Limited extension of previously published work in the field
	Exceptional theoretical or applied significance	Reasonable theoretical or applied significance	Limited theoretical or applied significance
	Exceptional publication potential	Reasonable publication potential	Limited publication potential
Teamwork	The team worked well together to achieve objectives	The team worked well together most of the time.	Team did not collaborate or communicate well. Some members would work independently
	Each member contributed in a valuable way to the project.	Only a few occurrences of communication breakdown or failure to collaborate when appropriate	Some members would work independently, without regard to objectives or priorities
	All data sources indicated a high level of mutual respect and collaboration	Members were respectful of each other	A lack of respect and regard was frequently noted

Count			
Total $\Sigma(\text{count} \times \text{score})$			
Rating (Total/60) * 100%			

Individual Evaluation (encircle the appropriate score):

Members	Delivery		Knowledge		Total	Rating
	Posture and poise, voice projection (20%)	Grammar and diction (20%)	Mastery of the subject matter (30%)	Comprehensiveness of answers (30%)		
Luna, Joshua Mark	4 3 2 1	4 3 2 1	4 3 2 1	4 3 2 1		
Georpe, Clark Kent	4 3 2 1	4 3 2 1	4 3 2 1	4 3 2 1		
Cabas, Rhinn Anthon William	4 3 2 1	4 3 2 1	4 3 2 1	4 3 2 1		
Ygot, Joshua	4 3 2 1	4 3 2 1	4 3 2 1	4 3 2 1
